CENTERVILLE SCHOOL

FREMONT, CALIFORNIA

We are proud to say that the Centerville Elementary School District is the second oldest in California. It was founded in 1852, three years after the founding of the San Francisco School District. Since that time three other schools have been built, all on the site of our present school.

Our school was built in 1940. Since then, several additions have been made. We have five schools in our district now, and plans are being made to add more as needed.

At the request of the Student Council, the Board of Trustees approved the changing of the name of our school from Centerville Elementary School to Centerville School, much to the joy of our seventh and eighth graders.

This year the first wing of the Mattos School was occupied and additions will be completed there soon.

The Centerville District's sixth school will be built in the near future on Logan Drive near Mowry Road.

Our Board of Trustees is working hard to provide adequate classrooms to meet the rapid growth in enrollment which is expected to continue for some time to come.

THE INSTITUTE

SUPERINTENDENT

The students, parents, teachers, and school employees in the school districts in California that are growing rapidly deserve extra commendation. They have had dual problems of improving educational offerings and at the same time providing facilities, staff, supplies, et cetera, for an ever increasing school population.

California was admitted to the United States as a state in 1850. It took ninety years from 1850-1940 for California to attain an enrollment of 1,000,000 students. Twelve years later, 1952, enrollment reached 2,000,000; seven years later, 1959, enrollment was 3,000,000. Five years from now, 1965, enrollment will be 4,000,000.

Centerville School District was second in California-being established in 1852. For 101 years Centerville had one school. Schools have been established as follows: 1953-Norris, 1955-Glenmoor, 1958-Oliveira, 1959-Mattos. Plans for sixth school on Mowry Road are being processed and additions will be added to existing schools as soon as possible.

In May, 1953, Centerville District had five hundred (500) students. Our Board of Trustees, our school employees and I are proud of the two thousand five hundred (2,500) boys and girls presently enrolled in our five schools. There is always room for improvement, but, by and large, you can't find better youngsters anywhere.

Tom Maloney

PRINCIPAL

The completion of the school year brings to mind graduation and new classes. We will miss our present eighth graders but we recognize that secondary education is a sign of growing up.

As summer progresses members of the Class of 1960 will look forward to a high school career, we begin to anticipate the Class of 1961, and then realization dawns that a year from now we experience the same feelings all over again and hope that, just as now, a mutual feeling of respect again will exist between staff and students.

Best wishes to each and every graduate and a pleasant summer to all.
